## EMPOWERING ACCESS CONTROL SOLUTIONS WITH YEBOTECH

Welcome to Yebotech, where we redefine security with cutting-edge digital lock and key solutions. Our innovative technology tackles the longstanding issues of traditional locking systems, offering a reliable key and flexible core technology. Discover a world of enhanced security and convenience with Yebotech.

## INTELLIGENT KEY MANAGEMENT SYSTEM

At the heart of our technology lies our web-based Management platform, enabling centralized control and remote management of access permissions. Through any device, effortlessly configure and assign time-windowed access permissions, simplifying the process and empowering you with complete control.

## SEAMLESS SYNCING AND AUDITABILITY

When our programmable key is inserted into our sync station or accessed via NFC using our Yebosync Android app, assigned permissions are automatically downloaded. This provides the user/owner with unlimited access within the defined time window. Additionally, a comprehensive audit trail of the key's activity is securely uploaded to our servers, ensuring robust auditing, traceability, and statistical analysis capabilities.

### ADDRESSING KEY PAIN POINTS

We understand the challenges faced by our clients, and our solutions are designed to alleviate their pain points effectively. [Here are some of the core issues we address:](#)

#### CENTRALLY CONTROLLED

##### Remotely managed access:

Take command of your facility's infrastructure with our web-based Management platform, accessible remotely from any device.

#### COMPLETE AUDITABILITY

Transparency and accountability are at the heart of our system. Every event within the Yebotech system is meticulously recorded and can be easily audited through our user-friendly web application. Rest assured that nothing goes unnoticed or untraceable.

## TIME-SAVING CONVENIENCE

**Bid farewell to endless key searches.** With our programmable key, you'll have all the access you need in one place, eliminating the need for multiple keys.

#### HASSLE-FREE KEY REPLACEMENT

In the event of lost or missing keys, our system saves you from the hassle of refitting lock hardware. Simply wait for the time window to expire or utilize our blacklist functionality to prevent unauthorized access.

#### DEDICATED PRODUCT SUPPORT

Our dedicated national support team in South Africa is ready to assist with any technical queries or concerns.

### ABUS 55mm Nano Shackle Padlock

55mm padlock crafted from heavy-duty hardened steel alloy, now with an integrated Yabotech stainless steel plug. This exceptional lock sets a new standard by seamlessly blending strength, remote management capabilities, and innovation. Its robust through-hardened steel alloy shackle, fortified with NanoProtect Chrome Plating, ensures that rusty shackles become a relic of the past. (Y120-PDL-04)

### Digital Yabotech Key

Unlock the Future with the Yabot Electronic Key, designed exclusively for Yabot lock sets. This advanced key is powered by a convenient and easily replaceable coin cell CR2032 battery, ensuring you can enjoy up to 50,000 lock accesses without any hassle. (YK16-KEYB-04)

### Abus 45mm Mariner padlock

Mariner weatherproof padlock with integrated Yabotech stainless steel plug, represents a new standard by seamlessly blending strength, remote management capabilities, and innovation, all while providing maximum security and durability even in the harshest environments. (Y120-PDL-02)

### 6mm Composite Padlock

Exceptional Cost-effective zinc die-cast open shackle padlock with a fibre-filled nylon sleeve incorporating Yabotech plug for outdoor use with key retention. This innovative lock not only offers unparalleled strength but also features remote management capabilities, setting a new standard in security with ball bearings on the cam locking mechanism, shackle wipes, plastic bearings, and drainage channels, it ensures smooth operation even in wet and muddy conditions. (Y115-PDL-02)

### Die-cast CAM Lock

Cabinet Cam Lock, designed with a 90° rotation and a key retention system, making it ideal for controlling access to swing door cabinets and drawers. This cost-effective solution serves as a seamless replacement for the widely-used 19mm cam locks. It is particularly valuable in scenarios where precise, audit-ready access control is essential for frequently accessed cabinets.

Showing an integrated Yabotech stainless steel plug, marking a transformative era in lock technology; merging robustness, remote management functionalities, and groundbreaking

### Abus 45mm Titanium padlock

Abus Titanium 6411 Padlock 45mm, featuring an integrated Yabotech stainless steel plug, represents the pinnacle of modern padlock technology. This new generation of padlocks seamlessly blends strength, remote management capabilities, and innovation. Crafted from TITANIUM, a special aluminum alloy known for its exceptional durability and lightweight properties, this lock sets a new standard in the world of security. It is strong, lightweight, and innovative, embodying the perfect combination of materials to create a padlock that is not only highly secure but also incredibly innovative. (Y120-PDL-06)

**Cylinder Lock - Single sided**  
Abus has revolutionized single cylinder with digital technology. This innovative lock features an integrated Yabotech stainless steel plug, adding to its strength and security. The lock is designed for easy installation and operation, ensuring a smooth and secure locking experience. (Y115-PDL-01)

**Cylinder lock - Double Sided**  
Abus has revolutionized double cylinder with digital technology. This innovative lock features an integrated Yabotech stainless steel plug, adding to its strength and security. The lock is designed for easy installation and operation, ensuring a smooth and secure locking experience. (Y115-PDL-02)

**Cylinder Lock - Key and Remote**  
Abus has revolutionized cylinder lock with digital technology. This innovative lock features an integrated Yabotech stainless steel plug, adding to its strength and security. The lock is designed for easy installation and operation, ensuring a smooth and secure locking experience. (Y115-PDL-03)

**Abus 55mm closed Nano Shackle Padlock**  
Abus 55mm closed Nano Shackle Padlock is a revolutionary lock designed for maximum security and durability. It features an integrated Yabotech stainless steel plug, ensuring a smooth and secure locking experience. (Y115-PDL-04)

**Abus 55mm Nano Shackle Padlock**  
Abus 55mm Nano Shackle Padlock is a revolutionary lock designed for maximum security and durability. It features an integrated Yabotech stainless steel plug, ensuring a smooth and secure locking experience. (Y115-PDL-05)

**Activation Plug**  
Abus Activation Plug is a revolutionary lock designed for maximum security and durability. It features an integrated Yabotech stainless steel plug, ensuring a smooth and secure locking experience. (Y115-PDL-06)

## REVOLUTIONIZE YOUR SECURITY WITH YEBOTECH

Say goodbye to the hassle of replacing locks. Yebotech develops and manufactures locks in common and international standard form factors, allowing for easy integration into existing spaces. No wires, no complications—just a smooth transition to advanced security.

## COST-EFFECTIVE SOLUTION

Eliminate the need for lock replacements when keys go missing. With Yebotech, keys can be blacklisted effortlessly at the click of a button. This means you only pay to replace stolen keys, reducing operating costs and saving you valuable resources.

## UNMATCHED SECURITYFEATURES

Yebotech takes security to the next level, offering a range of powerful tools to safeguard your assets. Benefit from features such as time windowing, instant access rights revocation, unique identities for keys and locks, and more. Keep your assets truly secure under lock and key.

## DIGITAL LOCKSBUILT TO LAST

Our digital locks operate without batteries or any wiring, drawing power directly from the key. Installing a Yebotech lock is a breeze, and it can be integrated into various locksets effortlessly. Additionally, our locks are designed with unrivaled security—each one boasts over 18 billion combinations, ensuring maximum protection.

## TRUST **YEBOTECH** FOR **INNOVATION**

Yebotech has been at the forefront of electro-mechanical solutions for over a decade. As an electronics manufacturing company founded in 2005, we prioritize stability, physical durability, and seamless deployment. Our goal is to provide access technology that surpasses traditional locking systems, delivering unparalleled features through digitization.

## TAKE **CONTROL** OF **YOUR SECURITY** TODAY

Explore the various features and benefits of Yebotech's advanced security solutions. From time windowing to multi-key access, our technology ensures your assets always remain protected. With comprehensive auditing, ease of management, and unbeatable security features, Yebotech is your partner in revolutionizing security.

For more information on our innovative solutions or to request a demo, visit our website or contact us directly. Let Yebotech lead the way to a safer future.
